MRS. IDA McDONALD,

Supreme Deputy of the Maccabees of the World.

MRS. McDONALD, No. 477 Beaubien Street, Detroit, Mich., is a prominent woman who was greatly benefited by the great woman's medicine, Wine of Cardui. Mrs. McDonald is the supreme deputy of the Maccabees of the World, and one of the most widely known women in the United States. Thousands of women gather to hear her lecture everywhere she goes. The great work she has done for the Maccabees is appreciated by every member of the order. She was so absorbed in her work that she neglected to give her health proper care—failed to take warning that the symptoms of approaching kidney trouble gave her, the sallow complexion and torpid liver. But Wine of Cardui cured her the same as it has cured thousands of others and Mrs. McDonald has written this letter in order that other suffering women may secure from Wine of Cardui the same relief she got from it.

"For four years I suffered with torpid liver until my skin looked yellow and dull. I then found my kidneys were affected and had severe pains across my back, and I felt

Mrs. Ida McDonald.

that I must do some-
thing to regain my health.
I had read of Cardui treatment
so strongly that I decided to
try it, although I had little
faith in patent medicines.
I am now very thankful that
I did so, for within ten days
blessed relief came to me,
and in less than three
months I was cured, and
have enjoyed fine health
ever since. I know there is nothing better
for a sick woman who wishes to enjoy per-
fect health and am very pleased to give my
heartiest endorsement."

No suffering woman can afford to
ignore such a letter as Mrs. McDonald
writes. Her plans and advice have
proved valuable in building up one of
the greatest women's organizations in
the United States and she takes time to
give advice which she knows will help
you.

Do not delay in securing this medi-
cine. There is nothing to gain and
everything to lose by delay. The choice
is before you. Will or will you not
secure relief now by taking Wine of
Cardui? All druggists sell \$1.00 bottles
of Wine of Cardui as well as 25c pack-
ages of Theodor's Black-Draught.

WINE of CARDUI

A million suffering women
have found relief in

IS IN THE BALANCE. TWO THOUSAND FEET

Life of the Pope Is Suspended From
a Slender Thread.

SYMPTOMS SERIOUS.

At an Early Hour the Doctors Hold a
Consultation and Ascertain How
the Malady of the Pon-
tiff Progressed.

Rome, July 10, 2 a. m.—Another day
of hopes and fears has passed and
Pope Leo's life still hangs in the bal-
ance. Beginning with renewed hopes,
the day closed with the scales tending
slowly but surely downward.

At 7:30 o'clock Thursday night Dr.
Lapponi declared his fear that there
was no hope, but that death might
come during the night.

Dr. Mazzoni said: "I was with the
pope from 11 p. m. until after midnight
and found his general condition sta-
tionary, no change having taken place
since this afternoon when the consul-
tation with Dr. Rossoni was held. To
strengthen the patient's heart and to
help the circulation of the blood, I in-
jected camphor and caffeine, after
which the pope, who seemed somewhat
relieved, said he remembered having
been treated on a similar basis when
he was Nuncio at Brussels sixty years
ago."

In reply to a question Dr. Mazzoni
replied:

"I really can not say whether the
serum in the pleural cavity has in-
creased since the consultation this af-
ternoon as I did not examine his holiness
for such a purpose. It must be
understood the pope is too frail to be
handled like other people. Besides,
his thorax, through old age, has be-
come bent in such a way that the right
side, where pneumonia was first de-
tected, curves out in a pronounced
manner while the left side curves in."

Death of Valpioni.

Rome, July 10.—The death of Mr.
Volpioni, which occurred Thursday,
was carefully kept from the pope
throughout the day. It was at first
feared that it would be necessary to
inform the pontiff in order that Mr.
Volpioni's successor to the office of sec-
retary of the consistory might be ap-
pointed, but after discussion by the
Vatican authorities, it was decided
that the precedents admitted of the
nomination of a secretary without the
intervention of the pope.

UNITED MINE WORKERS.

Meet in Convention at the Pittsburg of
the Sunflower State.

Pittsburg, Kan., July 10.—Speeches
by John Mitchell, W. D. Ryan and others
took up almost entire time of the
first session of the interstate conven-
tion of the United Mine Workers of
America. The local operators met in
separate conference and completed
their organization. As yet, there has
been no intimation of the probable ac-
tion of the joint conference to be held
next Monday, when a new wage scale
will be considered.

Discussing the conference, Mr.
Mitchell said: "This is the most im-
portant labor conference in any part
of the west, in my estimation. If it
works out as successfully as we have
reason to hope, it will establish a ba-
sis of wage adjustment which will be
taken up by labor industries and do
much to minimize the number of
strikes and lockouts, if it does not en-
tirely alienate them."

"The convention looks much to me
as though all the different mining in-
terests of three districts are rep-
resented, and the prospects, as I view
them, are for a satisfactory settle-
ment with a substantial increase in
wages and improvement in other con-
ditions."

EDUCATORS ELECT.

man, Louisiana; W. L. Prather, Texas;

Ohio. Directors: Alabama, J. W. Ab-
ercrombie; Arkansas, John Hineman;
Georgia, W. H. Clayton; Indiana, L. A.

Quickly Convicted.

New York, July 10.—William Spen-
cer, the negro who shot and killed Su-
perintendent Charles C. McFarland of
the Anti-Police society on June 15 in
a corridor of the court of general ses-
sions, was found guilty of murder in
the first degree. His plea of insanity
was unavailing. The jury was out just
fifty-five minutes. Spencer will be
electrocuted during the third week in
August, or just two months after the
commission of his crime.

Henry Hungerford, who owned ex-
tensive interests in Texas, died at New
Haven, Conn.

Dreadful Drop of Three Engines and
Twenty Freight Cars.

ON HANGING BRIDGE.

Without Warning One of the Loco-
motives Jumped the Track and
After Running Upon Ties
Plunged Into Abyss.

Chicago, July 10.—A dispatch to the
Record-Herald from Canon City, Colo.,
says: Three engines and twenty cars
of a freight train jumped the Denver
and Rio Grande track in the Royal
gorge and plunged into the Arkansas
river, a fall of 2000 feet. The engines
have not yet been found. Ten freight
cars are also missing. The river is
very deep and high and the current
runs at a terrific speed. The three en-
gines, a fireman and a brakeman
have disappeared in the wreck.

The accident took place near the
hanging bridge in the Royal gorge,
about six miles east of Canyon City.
It is the most picturesque railroad
spot in the west. The gorge is only
fifty feet wide, but the rocks rise per-
pendicular from the Arkansas river to
a height of more than a third of a mile.
The freight train was bound east. Two
of the engines were "dead," being
drawn along with the cars. Without
warning the locomotive that was fur-
nishing the power jumped the track,
bumped along on the ties for a few
feet and then plunged into the abyss,
dragging the other engines and ten of
the cars after it.

Two of the firemen jumped. The en-
gines refused to leave their posts and
fell to certain death in the torrent 2000
feet below. A brakeman was thrown
into the gorge, where the cars ran off
the track. The breaking of the coupling
saved the ten rear cars from falling
into the river.

SEVEN FUNERALS.

Two More of the Wounded Are Said to
Be in a Serious State.

Evansville, Ind., July 10.—After talk-
ing with Governor Durbin over the
telephone, Brigadier General McKee
ordered all troops removed from the
streets of Evansville. The Terre
company left for home and the Evans-
ville company was relieved from duty.

There were seven funerals Thursday.
All were conducted quietly. The min-
isters in one or two cases prayed for
the city and county officials, and said
this was not a time for criticism, but
for sympathy for the friends of the
dead. Two more of the wounded men
are said to be in a critical condition.
The grand jury is taking testimony
on Monday night's shooting.

Quiet Prevails in Bulgaria.

Constantinople, July 10.—Official news
received from Sofia is more reassuring.
Bulgaria has abandoned her intention
of reinforcing her troops on the fron-
tier. In diplomatic circles a calm view
of the situation is now taken and it is
now believed the storm has passed
away.

Postmaster General to Cruise.

Washington, July 10.—Postmaster
General Payne announced that he will
leave here next Wednesday on a cruise
along the coast to Boston. He said that
he will take advantage of the regular
cruise of the revenue cutter Onondago
to go on that vessel and will be away
about ten days.

Chicago, July 10.—A dispatch to the

nounced his intention of going to Eu-
rope this fall to study sociology under
monarchical forms of government. It
is the intention of Mr. Bryan to sail
early in September and remain until
the end of the year.

young girl, and Miss Ashton, a profes-
sional nurse, have been drowned at
Wading river, Long Island, while bath-
ing. Miss Ashton and another nurse
went to Wading river to visit friends.
After dinner they went for a plunge
in the surf. The Merry children begged
to be taken along. While Miss Ashton
and osie were splashing about near
shore they were caught by the under-
tow and dragged to their death. Miss
Barker saved Josie's sister at the im-
minent risk of her own life.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that
Catarrh of the Stomach caused indigestion
and dyspepsia, but the truth is exactly the
opposite. Indigestion causes catarrh. Re-
peated attacks of indigestion inflame the
mucous membranes lining the stomach and
expose the nerves of the stomach, thus caus-
ing the glands to secrete much instead of
the juices of natural digestion. This is
called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous
membranes lining the stomach, protects the
nerves, and cures bad breath, sour risings, a
sense of fullness after eating, indigestion,
dyspepsia and all stomach troubles.

BRYAN, TEXAS, JULY 11, 1903

Navasota has raised \$600 towards a cannery and creamery.

Sour Lake has been having some race war excitement as a diversion from the oil craze.

That the "race question," after thirty years of prolonged discussion and development, considered all the while as a Southern question, should at last reach its most acute form in the northern states, is a consummation little expected. Yet such is true. The awful scenes being enacted at Evansville Indiana, where as a result of race riots seven white people lie dead, mangled with bullets, following the recent burning alive of a negro by a mob in Delaware, indicate that "the race problem" will be forced to a solution by events north of Mason and Dixon's line.

TO CLEAN UP THE TOWN.

Council Makes an Appropriation for the
Civic Club—Next Wednesday.
Cleaning-Up Day.

The city council held a regular meeting last night and a committee representing the ladies of the Civic Club appeared before the council and asked for an appropriation to aid the ladies in giving the town a thorough and systematic cleaning up. After hearing the proposition the council unanimously voted to grant the request and appropriated \$50 for the work and also the use of the city's hands, teams, tools, etc., for one day to be used under the direction of the ladies with such other labor as they may employ. An additional \$25 was also set aside to be used by the ladies in the work in case it is needed.

The ladies have been inspired and encouraged to enter upon this laudable work by the success which has crowned the efforts of the ladies of Orange, Victoria, Belton, Dallas and other cities and towns in the state, working along the same line. The Eagle desires to commend the council for the prompt and favorable action taken in this most important sanitary movement, and we hope the people of the town will join in with the ladies by cleaning up their own yards, alleys, etc. Provision will be made for hauling off all trash and for cutting all weeds and removing all trash and rubbish from all the streets.

Next Wednesday, July 15, has been selected as the day for cleaning up the town, which will be divided up into sections by the ladies and the work done under their direction.

The Civic club has no dues and includes in its membership all who will co-operate in this great work.

The council adjourned without transacting any other business until next Tuesday night.

Judge Scott has refused a petition for an injunction to prevent the publication of the result of the local option election in Robertson county.

Brazos county will be published far and wide in and out of the state as the banner county on exhibits at the Farmers' Congress, contesting with a number of the best counties in different sections of the state. This notable distinction will prove one of the greatest advertisements the county could have, and should be followed up by other efforts to keep prominently before the public. If the Business League and the Farmers' Institute will continue to co-operate in making exhibits and providing literature setting forth the resources and advantages of the county, the good results cannot be estimated. The next place to make exhibits will be the Central Texas Fair, and neighboring counties should bring along their exhibits as well as Brazos.

Central Texas Fair.

The Herald acknowledges receipt of season tickets to the Central Texas Fair, to be held at Bryan, Texas, August 18, 19, 20 and 21. An elaborate program has been arranged.—Palestine Herald.

The Central Texas Fair will hold their annual exhibit from August 18th to 21st, inclusive, and have placed the Banner under obligations for a season ticket. As Bryan is a neighbor it would be a good idea for some of our citizens engaged in raising fine stock to enter them in the contest.—Brenham Banner.

The Central Texas Fair directors, to encourage exhibits by the local merchants, have offered free space for making displays to all business men who are stockholders. The price paid for exhibit space heretofore has been \$10 for each display. Mr. J. Allen Myers, the Hot Kutter, who makes an exhibit each year, now makes the following offer and therein sets a good example. Mr. Myers says: "To the farmer who uses Oliver and John Deere plows and cultivators, making the best individual agricultural exhibit at the Central Texas Fair, I will give ten dollars in cash." Next.

The work of the Farmers' Congress was wound up yesterday with numerous committee meetings from the various sections, and most all those in attendance left for their homes. The Congress was the most successful yet held, and fully one thousand persons were present and took an active interest in the proceedings. Prof. J. H. Connell was re-elected president and Prof. W. D. Gibbs secretary. Col. E. S. Peters was elected first vice-president. President Connell's re-election was an appropriate tribute to the great work he has done in promoting the congress, and the selection of Prof. W. D. Gibbs for secretary to succeed Mr. B. C. Pittuck, who will shortly go to Louisiana, was a happy one. Located at College Station and in charge of the state's scientific work in agriculture and allied interests, Prof. Gibbs is certainly the man for the place.

It is learned at the college that among the new teachers next year will be Prof. John Avery Lomax, who has been registrar at the State University at Austin for several years. Prof. Lomax will be in the English department. The Agricultural and Mechanical continues to strengthen its faculty.—Galveston News.

Pope Requested That This Course Be Pursued.

A SECOND OPERATION

This Was Performed Thursday Night and After its Completion Patient Got One of Horace's Works and Perused Contents.

Rome, July 10.—The pope rose at 6 o'clock. He said he thought the air in his room was somewhat vitiated and wanted it changed. Attendant Pio Centra, after having been authorized to do so by Dr. Lappoin, opened the windows of the whole apartment, including that of the sick room, the pontiff having previously been carefully covered with extra blankets. After remaining open for a short time, the windows were closed with the exception of the ones in the sick room, Dr. Lappoin having decided that the balmy fresh air would only do the patient good. The opening and shutting of the windows was watched from the piazza by people who had gathered there to hear the latest news and some of them interpreted it as meaning the pontiff was dead, which necessitated a prompt official denial. The pope prayed for half an hour and then had breakfast, partaking of the yolk of an egg beaten up with sugar in hot coffee and light biscuit. The pontiff then attended to his toilet, but he did not shave. He then received his private secretary, who was again surprised at the pope's brightness of mind and display of energy.

After the bulletin had been issued the crowds about the entrance of the Vatican dispersed. Authorities of the Vatican made arrangements which showed that they expected a quiet day, and though the feeling is that while the case is hopeless, it may be several days or even a week longer before the end comes. On leaving the sick room Mgr. Angeli remarked to those who surrounded him and asked for news that from his appearance one would say the pope was in a normal condition. The monsignor added that the pontiff referred to several different matters, recalling exactly the most minute details. He remembered facts, figures and dates with marvelous promptness, and all this to the accompaniment of snuff taking. The same impressions were formed by Count Camillo Pecci, who visited the pope after Mgr. Angeli.

The doctor's visit and operation followed. Dr. Mazzoni's last operation was almost identical with that of the other. The patient lay on a couch with his side exposed. The skin above the affected parts was washed with a solution of alcohol and cocaine hypodermically injected and Dr. Mazzoni inserted a Pravaz needle which, by suction, drew off the vitiated matter. The operation was comparatively painless and was performed without recourse to chloroform or other anesthetics. The pope felt so relieved he insisted on getting up and took several steps toward his arm chair and seated himself for a few minutes. He then rose and going to the book shelves where he keeps his favorite authors took down Horace's Ars Poetica, returned to the arm chair and began reading, holding one leg over the other. He seemed to feel no ill effects from the operation. On the contrary he appeared to derive benefit from it. Later in the day the pope had lunch and then took a long rest.

SECOND OPERATION.

Pope Had One Thousand Gramms of Bloody Serum Extracted.

Rome, July 10.—The following bulletin regarding the condition of the pope was posted at 10:30 o'clock. The august patient passed the first part of Thursday night fairly peacefully, but afterwards had difficulty in his breathing. It became more marked, coupled with discomfort and an increase of the feeling of oppression. The pulse was small and weak at the rate of 92. Apnea is complete and there is little diuresis. A flow of endopneumic matter being observed, a second operation was decided upon and it was immediately performed by Dr. Mazzoni. About 1000 grams of bloody serum were extracted. The pontiff bore the second operation very well, and in consequence of it both his respiration and power of heart at once improved.

Extracted Water.

Washington, July 10.—Mgr. Falcono, apostolic delegate, received the following cablegram from Cardinal Rampolla: "The night was sufficiently calm. The holy father has well undergone a new operation extracting water."

Several Cardinals Called.

Rome July 10.—Several cardinals, including Satolli, called at the Vatican.

Seven Deaths, Five Prostrations.

New York, July 10.—Up to 10 o'clock Friday five deaths from heat were reported from Brooklyn and two deaths and five prostrations in this city.

Lunched With Lord Mayor.

London, July 10.—Lord Mayor Samuel gave a luncheon at the mansion house in honor of Rear Admiral Cotton and officers of the United States European squadron now at anchor in Portsmouth harbor.

RIGHT OF EXCLUSION.

This May Figure Largely in Selecting Successor of Pope.

Rome, July 10.—Premier Zarnedelli had a long conference with the minister of justice, Sig. Coccuortu, under whose jurisdiction are all religious affairs in Italy, about the eventual right of veto which the Italian government might exercise at the next conclave. Three Roman Catholic powers, Spain, France and Austria, enjoy this privilege, termed the right of exclusion, which entitles them to the rejection of a candidate who is non persona grata to their governments. In such cases the power which may desire to prevent the election of a certain candidate deposes to the cardinal of its nationality to announce the objection at the conclave, but the announcement must be made while the scrutiny is going on, before the candidate has received a majority of the votes required to elect, otherwise the protest will be invalid. This right has been regarded as extremely important, especially in the middle ages, when Italy, being the largest field of action for France, Austria and Spain, the choice of a pontiff was a question of supreme importance, as he played the leading part in their disputes. Italy claims the right referred to, as her kingdoms and the two Sicilies, which enjoyed the right, but Italy did not exercise it in the last conclave and may perhaps find it difficult to do so now, as no Italian cardinal, even among those who are most conciliatory, will undertake to represent united Italy, which is considered by the church to usurp the temporal sovereignty of the papacy. Besides, Italy's policy consists in considering the papacy to be merely a spiritual power which, enjoying under Italian law complete liberty and independence, can wipe out political intervention and exercise its ministry in Rome, the capital of the kingdom. Portugal also claims to be eligible to a claim to veto undesirable candidates to the papacy, but her rights have never been acknowledged. Austria tried at both of the last conclaves respectively to prevent the election of Pius IX. and Leo XIII., but the two cardinals, Gayruck and Ganglebiur, deputed for the task, both arrived too late. The last time the "right of exclusion" was successfully employed was in 1835, when Spain prevented Cardinal Giustinian from being elected pope when he already had received twenty-one out of the twenty-nine votes necessary to reach a two-thirds vote. Cardinal Giustinian was so disappointed that he died shortly after the conclave.

EDITORS EDIFIED.

Heard Papers Read, Speeches Made and Addresses Delivered at Omaha.

Omaha, Neb., July 10.—B. B. Herbert of the International Editorial association gave to the National Editorial convention an account of a journalistic association in England which has met with great success. Its membership is made up of employers, employees and students, banded together under the name of the "Institutive Journalists of England." One of its objects is the protection of its members against libel suits and other difficulties common to journalism. Out of the association has grown "The World's Press congress," which will be held in St. Louis next year. Mr. Herbert recommended that a delegate be appointed to represent the editorial association at that convention, and the suggestion was adopted.

"Relation of the Newspaper to the State" was the subject of an address by E. C. Raney of Fort Scott, Kan. He held the best service rendered to the state by the party paper is independent when necessary.

Editor Rosewater gave a talk on "The Ethics of Journalism." He criticized doctors and lawyers for seeking advertising in newspapers. The editor, he said, erred and sinned rather about the things he suppressed than by what he published.

A paper on "The Editor and the Banker," by John A. Slescher, was read by Thomas P. Peters of the Brooklyn Times. The paper was a defense of the Aldrich bill, which its advocates hope to pilot through congress during the coming session.

The dead girl, whose name is not known, and the slightly injured were left at Madison, while those more seriously hurt were brought to St. Louis. Spreading rails caused the accident.

Morning Prayer Meetings.

Atlanta, Ga., July 10.—The second day's session of the International Baptist Young People's Union opened with morning prayer meetings, which were held in local churches and conducted by visiting clergymen of the convention.

Williamsburg, Ky., July 10.—Eleven prisoners escaped from jail here last Thursday night by prying out an iron grate of the floor. Five are charged with murder and other serious offenses. Six prisoners refused to leave.

MILES AT GALVESTON.

General Makes a Tour of Inspection and Saw Sea Wall.

Galveston, July 10.—General Nelson A. Miles, accompanied by Colonel Maus of his staff, and former Governor Hogg, spent a few hours in Galveston Thursday. General Miles is making his last inspection tour of the forts and army posts before retiring on Aug. 8.

He was met by Colonel Edgar Jadwin, United States Engineer in charge of his district, and visited Forts Crockett, San Jacinto and Travis, where the reconstruction of the batteries destroyed by the storm of three years ago is in progress.

A trip and inspection of the seawall and a surf bath were features of the brief sojourn in Galveston.

BAR ASSOCIATION.

Eighth Annual Session, Held at the Alamo City, Has Ended.

San Antonio, July 10.—The Texas State Bar association closed its eighth annual session in this city, and adjourned to meet in Houston on Wednesday after the second Monday in July, 1904. The work of the convention just closed may possibly bear fruit in the line of two or three legislative reforms. The first call for reform came from the committee on jurisprudence and law reform, which urged the amendment of the law in regard to civil jury trial so as to make it the statutory duty of trial judges and judges of the appellate courts to set aside verdicts that, in their opinion, are unjust or excessive.

Discovered Negro In Room.

Thomaston, Tex., July 10.—Two sisters, Misses Annie and Addie Ferguson, discovered a negro in their bedroom. They screamed and the miscreant fled. The father fired twice at him. He left his hat. A negro named Joe Taylor was arrested and hurried off to Cuero.

Status of Cotton.

Dallas, July 10.—The cotton crop report of the News shows a decreased acreage of 8.54 in five districts of Texas. There is an increased acreage in north and central Texas. Conditions are about the same as last year.

Brakeman Seriously Shot.

Beaumont, Tex., July 10.—A Southern Pacific brakeman named W. D. Thompson was probably fatally wounded by an unknown negro, who resented being ordered to get out of a box car.

Were Banqueted.

Fort Worth, July 10.—The members of the Texas Undertakers and Funeral Directors' association visited the packing houses and were banqueted. They also witnessed embalming demonstration by Dr. C. L. Barnes of Chicago.

HELD AT DENVER.

Christian Endeavorers In Annual Session at Colorado's Capital.

Denver, July 10.—The twenty-first annual meeting of the Young People's Society of Christian Endeavor opened Thursday. Old officers were re-elected as follows: President, Rev. Francis E. Clark, D. D.; treasurer, William Shaw; clerk, George B. Graff; auditor, Fred H. Kidder.

The retiring trustees also were re-elected, and presidents were named for the various state, territorial and provincial societies.

Southern Negro Congress.

Shreveport, La., July 10.—Quite a number of delegates are in attendance on the Southern Negro Congress. Six states are represented. E. B. Tapp of Mississippi was re-elected president and W. H. Noble, Jr., secretary. Mobile, Ala., holds next meeting. President Roosevelt was endorsed "for his enforcement of the constitution." The purchase of 100 acres on which to erect a hall for the congress was recommended.

Blanket For President.

Ponca City, Okla., July 10.—President Roosevelt will receive at Oyster Bay within a few days a handsome piece of bead work, a present from five auctioneers who happened to meet at the Indian sun dance, in the Ponca reservation, in northern Oklahoma, recently. The bead work forms a saddle blanket of the very finest make, the handiwork of a Ponca squaw.

To Dance at Watonga.

Thomas, Okla., July 10.—Fifteen hundred Indians of the Arapaho and Washita tribes are congregating in town en route to Watonga to join in the sun dance in memory of the death of Howling Crane's and Yellow Bull's daughters, whose deaths occurred the same day some weeks since.

Natural Gas at Muskogee.

Muskogee, I. T., July 10.—A strong flow of natural gas has been developed in a well in this city and the indications are that the city will soon have an abundance of supply for lighting and manufacturing purposes.

Dr. Boyles Elected.

Newport News, Va., July 10.—The Association of Surgeons of the Southern Railway System met in annual convention at Old Point Comfort, electing Dr. J. S. Boyles, Corinth, Miss., first vice-president.
